Dear State Representative/Senator Name,

As a parent of the Interboro School District, I stand in opposition to the passage of Pennsylvania Senate Bill 1085 due to its potentially negative impact on local public schools.

My most serious concerns relating to Senate Bill 1085 are as follows:

- Would create new and substantial financial obligations for local school districts
- Does not immediately change the funding formula for cyber charter schools when the costs of operating cyber charter schools is considerable less than the costs of brick and mortar schools
- Fails to identify a process of accountability and reconciliation as it purports to limit fund balances of charter schools and institute a practice of return excess funds to school district.

We trust that you will represent the needs of my district by not supporting Senate Bill 1085.

Sincerely,

Your Name
