INTERBORO SCHOOL DISTRICT

COVID-19 Data Chart of Positive Cases

(Since the return to in-person school by building)

Positive Cases in ISD – As the weeks of in-person schooling progress there have been potential COVID-19 exposure at our schools. In those incidents, we have reported the incident to the CCHD for further guidance. The Health Department investigates all suspected or confirmed reports of COVID-19. This helps the CCHD give guidance to the people involved. School building Principals have sent families and staff communications based on exposure at school. **Please note that positive cases at individual schools may or may not have resulted in exposure at school. If exposure happens in an individual school, families and staff will be notified by the school Principal.** We ask that families continue to monitor their child’s symptoms of COVID-19 and keep their child home if he/she is symptomatic.
