RE: Phone Communication

Dear Parent/Guardian,

The district has been working diligently to implement a process that allows parents to contact their child's school in case of an emergency utilizing Google Voice. Please find listed below an explanation on the process to call the schools.

- Parents will first call the Google Voice number (listed below by building).
 - It may ask you to say your name – very similar to calling “collect.”
 - It will sound something like this: **“Please state your name after the tone and Google Voice will connect you,”** and then a moment before it begins to ring.
 - After several rings, it will ask the user to leave a voicemail message.
- Parents should leave their full name, phone number, and the name of the student when calling. Please be detailed in the message. Leaving as much information as possible, allows the buildings to help respond more quickly. If this message is for a teacher or the school nurse, please provide that information as well.
- If you are attempting to contact your child's school, district administrator, or transportation, we are encouraging you to email the staff member directly. Transportation email information can be located on the district website.
